

library\_manager\_app.Program1.Main

Main.MainScreen.PullBook

FileOperation.FileUtility.  
ReadBlock

```
graph LR; A[library_manager_app.Program1.Main] --> C[FileOperation.FileUtility.ReadBlock]; B[Main.MainScreen.PullBook] --> C;
```

The diagram illustrates a call graph where two different parts of the codebase invoke a shared method. On the left, two white rectangular boxes represent the source locations: 'library\_manager\_app.Program1.Main' at the top and 'Main.MainScreen.PullBook' below it. On the right, a gray rectangular box represents the target method: 'FileOperation.FileUtility.ReadBlock'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating the direction of the method calls.
